5. REPAIR PARTS LIST

5-1-9. LS/MECHANICAL CHASSIS BLOCK ASSEMBLY-2

ns: not supplied

Note1: The FP-031 and FP-032 are supplied as the assembled part of the MD (N220) sub ass'y A by attaching them with the adhesive agent. These parts are not separately supplied because assembling of these parts requires high accuracy.

Note2: The mode switch (S903) function works when the contactor of the FP-032 contacts with the bottom surface of wiper of the mode gear ass'y.

Note3: When replacing the motor holder or the motor holder base, be sure to replace them together as a pair.

Note4: Some sets do not have this screw or the EJ lever retainer.
For the sets that have them, follow the installation procedure
3-30-2. Attachment procedure (page 40) of DV mechanical adjustment manual IX) for installation.
